

PRIZED ORCHID . . . Mrs. Art Glenn Mack, of 21823 Figueroa St., proudly displays an 18-inch bloom orchid, described as a rarity.

18-Bloom Orchid Plant Raised by Local Couple

Who ever heard of a single orchid plant with 18 blooms—especially one of the cattleya variety?

Not many orchid raisers have ever seen one, but to Mr. and Mrs. Art Glenn Mack, 21823 Figueroa St., belongs the distinction of growing such a plant, which now adds color to their living room.

"This is 'quite unusual,'" said Dr. Joseph T. Bay, Board of Education member and himself a grower of orchids, "Most plants bear from six to eight blooms," he said, "and a commercial grower who gets ones with 10 or a dozen flowers is happy with it."

"We've been raising orchids for about 13 years," Mrs. Mack said, and it's the first one we've ever seen. The blooms should last about two weeks and we've given the plant the place of honor in our house so we can see it all the time."

The orchid, a Sir Walter Scott specimen, is only one of the 6000 varieties the Macks have raised through the years. "My husband should get the credit, though," Mrs. Mack said. "I'm more interested in painting."

Pyle Speaks at Dinner Meeting of Accountants

Herbert E. Pyle, Assistant Controller, Long Beach Division of Douglas Aircraft Company, and President-Elect of the Long Beach Chapter, National Association of Cost Accountants, was to be guest speaker at the Chapter's dinner meeting last night in the Lafayette Hotel.

His topic was "Cost Accounting as used in the Aircraft Industry" and was augmented with a showing of the sound-color movie "The C-124 Globemaster."

Burglars Rob Bar of \$25

Thieves who broke into Mac and Tom's Bar, 2458 Pacific Coast Hwy., early Saturday morning, escaped with about \$25, according to co-owner Don McLeod.

Water Saving Measure Set For Signees

After a year of work, the drafting of an interim agreement for voluntary curtailment of pumping from the West Basin has been completed and is being sent to all water producers in the basin, it was reported this week.

The agreement will become effective when signed by water producers representing 70 per cent of the total water production from the Basin. Reduction in pumping to the extent of about 37,000 acre feet of water annually will begin 90 days after the effective date of the agreement.

The Rex Goodell Committee worked for more than a year on drafting the agreement. All members of the Association are agreed on its general principles.

Rio de Janeiro—Greatest vegetable oil source in the world is believed to be South America's Amazon river valley.

Public Hearings Slated on Coach Line Changes

Plans for a series of public hearings on application of Metropolitan Coach Lines to substitute motor coach service for rail service on four lines in the Long Beach-Compton area were charted following a conference before the Public Utilities Commission last week.

No date for the hearings has been set so far, but Commissioner Verne Scoggins announced that agreement was reached to hold them in Los Angeles, Long Beach, and Compton.

Lines that Metro proposes to abandon are Watts, Bellflower, Lynwood, San Pedro, and Long Beach. J. L. Haugh, president, said the company would save about one million dollars a year in operating expenses and rentals through the proposed change.
